## Spirit of Merapi

As we all know, Merapi, one of the most active volcanoes in the world, erupted massively on 26 October 2010. On 4 November 2010, the mountain erupted again and it did not stop erupting over the next 100 hours. The pyroclastic materials getting spewed out to 5,000 meters high and destroying the areas where they flowed through, volcanic ash getting ejected far into tens of kilometers from the top of the mountain, all of these reminded people of a previous eruption back in 1872 with the same great intensity.

The story did not stop there. Until end of February 2011, the frequent rains transported lahars to the rivers on the flanks of Mount Merapi which destroyed a number of important bridges and cut off the route between Yogyakarta-Magelang.

Due to this disaster, hundreds of people have lost their lives, thousands of people have lost homes and livelihoods, hundreds of hectares of land have been badly damaged with an estimated economic loss at around IDR 7 trillion.

Behind all those sad stories, solidarity and great care emerged among all members of the public, whether among the local community, the Indonesian people or the world community. These have sparked new hope for a better future among the people affected by the volcanic activities.

It is the belief of Universitas Gadjah Mada as an institution inseparable from the development of the people of Yogyakarta that new knowledge will arise from the disaster. New opportunities came out for further research and exploration. UGM has developed dozens of researches that lead to the same goal, which is to help the communities at Merapi to be able to live in harmony and prosperity with Mount Merapi.

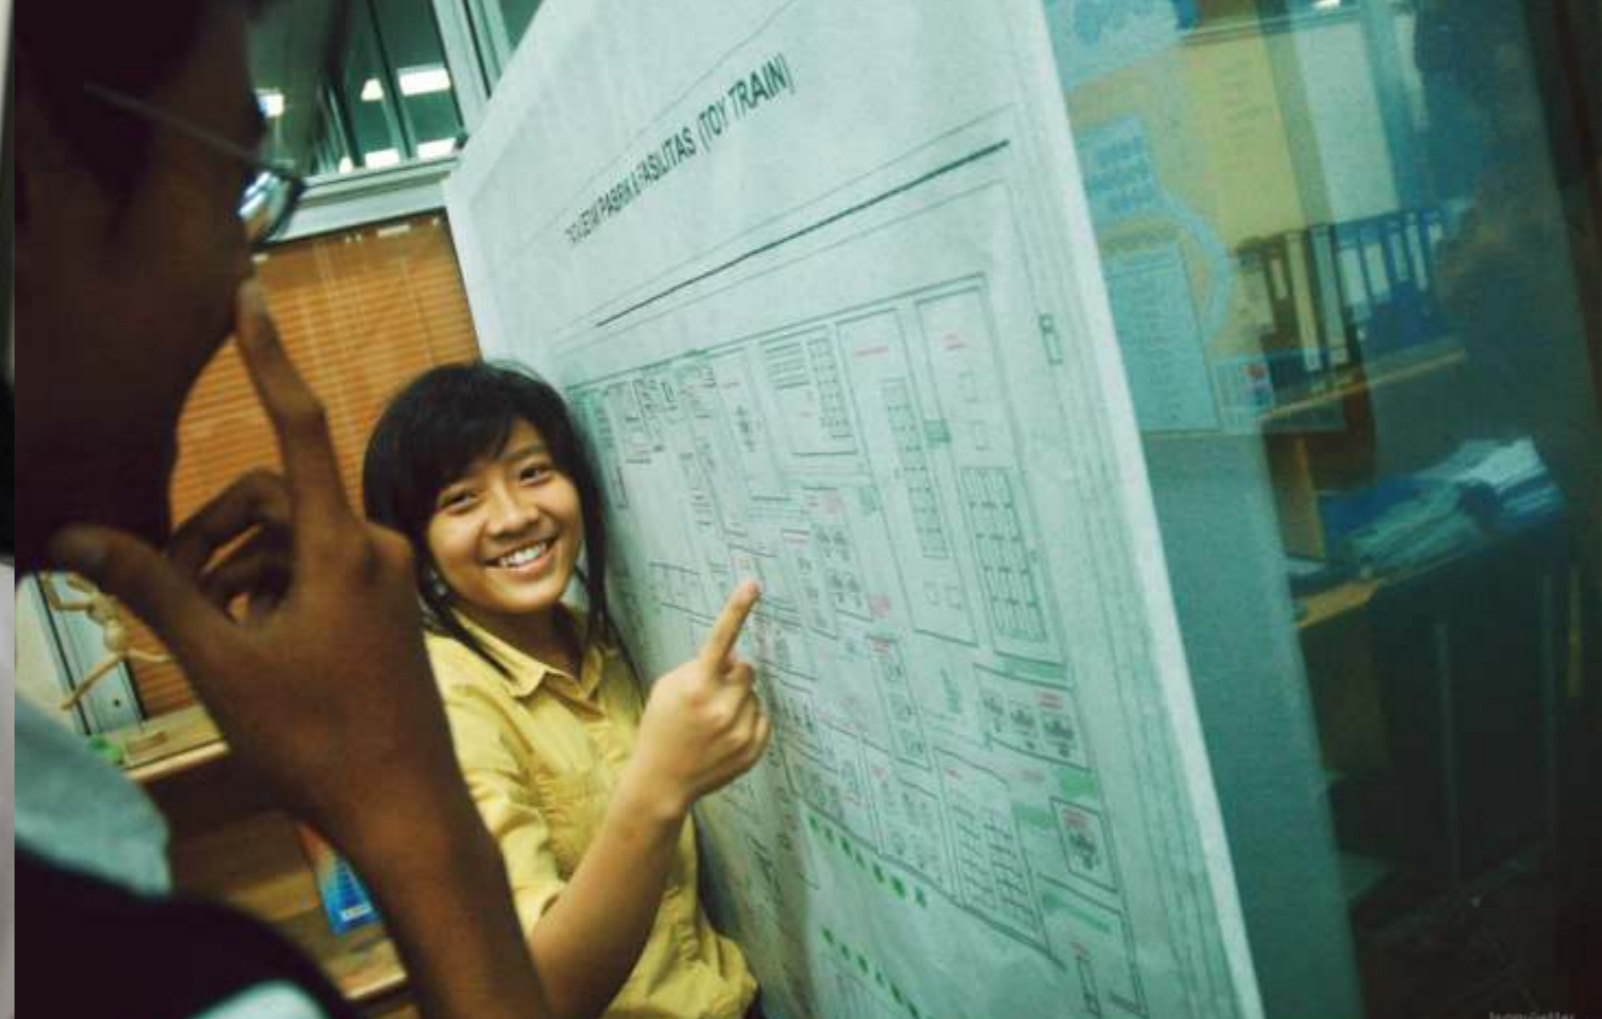

The Central building's first stone placing by the first President of Indonesia, 1951

Doctor HC Award to H.M. King-Father Norodom Sihanouk (Cambodia), November 30th, 1962

Director, Vocational School

## From The Rector

We share the notion that education is to make better future for everyone. Everyone on every part of this world has an equal right to have a better life. A good education will help people explore and develop their own skills and intelligence and make use of these to support their lives. It will help people make informed decisions which are crucial to forming their future.

But surely in the path to the future, there will be challenges for everyone and every nation. An educated person will not give up or be passive but will view those challenges seriously and make good, quick and wise response. A nation encountering a crisis, dealing with a natural disaster, conflict or any other problems, will seek efforts to address the problems tactfully and wisely based on knowledge and methods.

If not based on sound knowledge, the solution or settlement may become short termed, not resolving the core problem and leading to other problems. Obviously, knowledge is needed to deal with any issue that arises to produce best response. Our best response will produce good outputs, embracing all aspects whilst not undermining others.

With the myriad of problems arising around the world, higher education play a role that is crucial in producing the required solutions that consider all the important points, not neglecting one that may seem trivial, and not taking sides with one group.

As a higher learning institution that was founded in the year of 1949, UGM has its values to develop and apply knowledge for civilization, usefulness and happiness. This principle is still valid until today as most human beings have these purposes in life. But things will not be meaningful, if the people do not know the meaning of happiness. Therefore, UGM also tries to bring values for human happiness. This way, people can have more fun in their lives, jobs, and any matters they are dealing with.

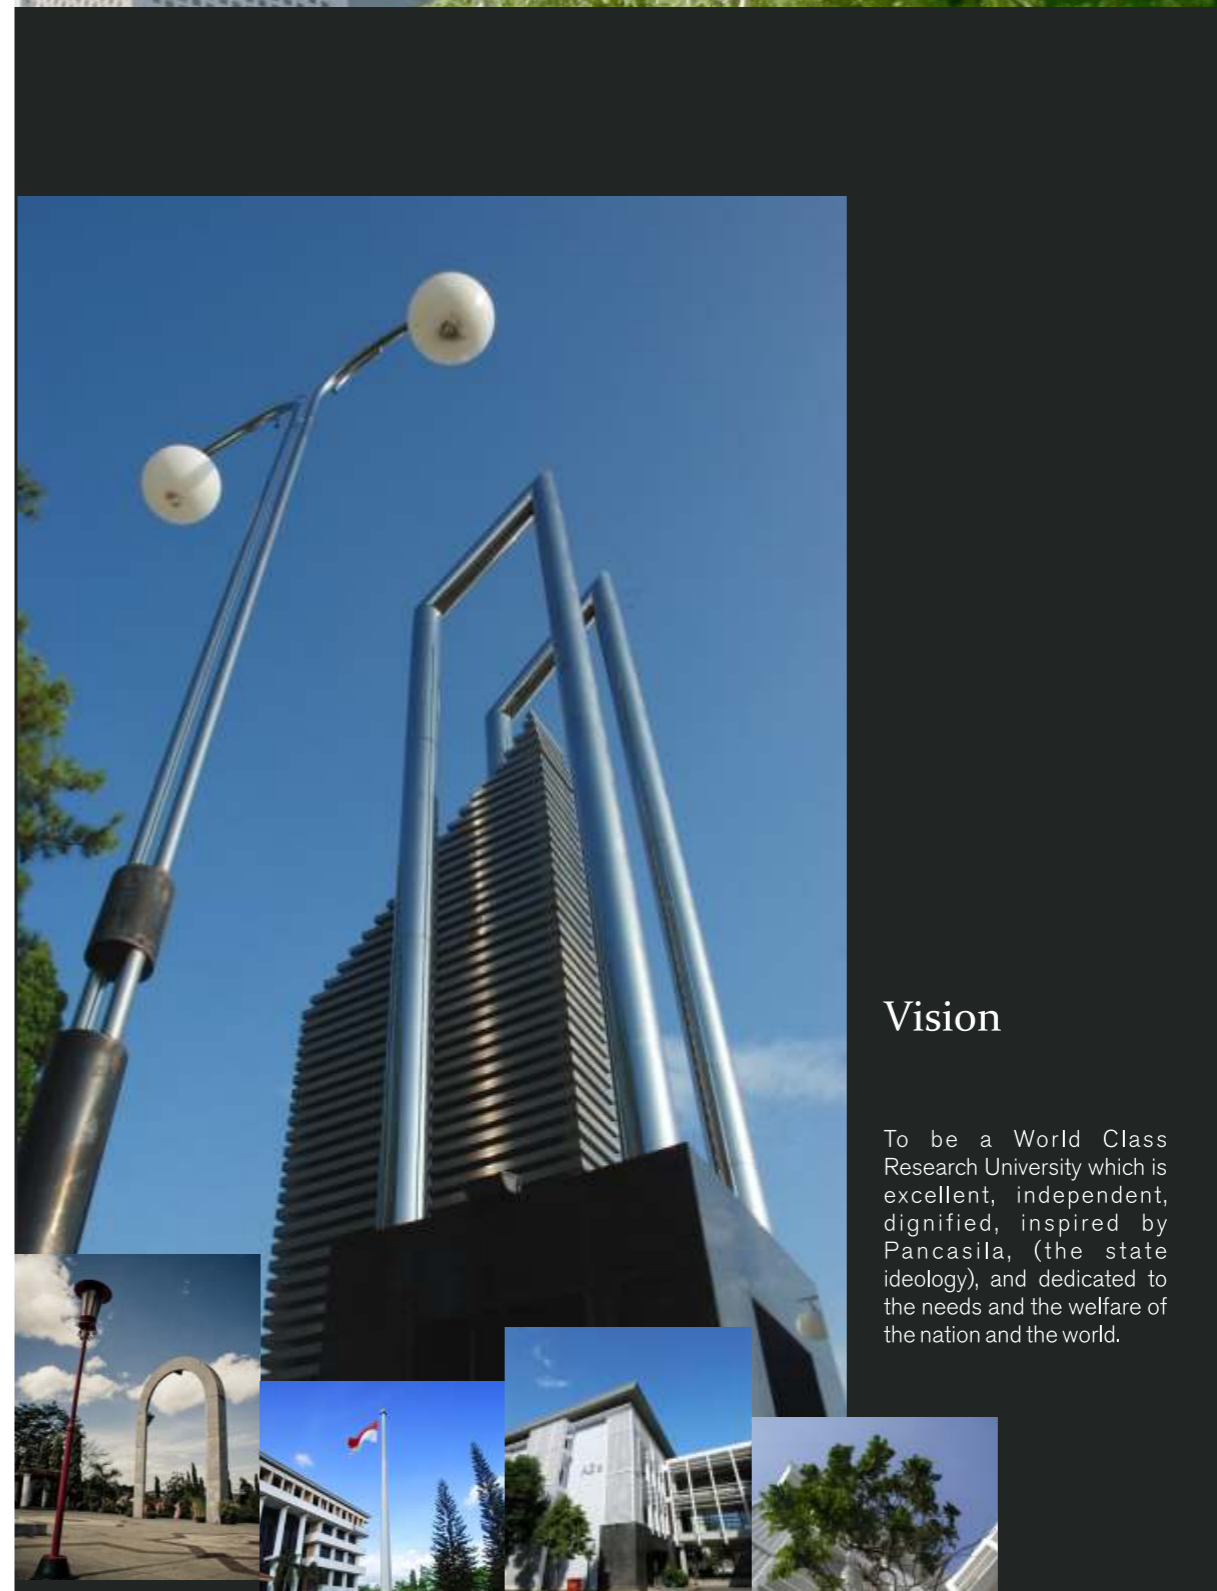

Starting in 2007, UGM has continuously tried to create the combination of best knowledge and local wisdom. Recent problems have been resolved by this combination. There is an abundance of knowledge and local wisdom in the vast Indonesian Archipelago. Higher education needs to explore these potentials for the betterment of, not only Indonesian people, but also all people around the world. In other words, UGM advocates the local wisdom to solve global problems.

Global networking is the vehicle to learn together more comprehensively. UGM invites everyone to join hands and cooperate in a variety of disciplines to produce the outcomes necessary for the public, nations and the world.

Another mission of UGM is to nurture future leaders. The young generation is the owner of the future. To them we entrusted our future and the world. At UGM, these young people are trained and equipped with knowledge, hard and soft skills as well as wisdom that will prepare them for the future.

UGM is also prepared to take on challenges and strives to be a leading university that is dedicated to the needs and welfare of the nation and the world.

Prof. Ir. Sudjarwadi, M.Eng., Ph.D

## Vision

To be a World Class Research University which is excellent, independent, dignified, inspired by Pancasila, (the state ideology), and dedicated to the needs and the welfare of the nation and the world.

## Recognition; Brief History

### Recognition

- 2<sup>nd</sup> Global Winner, Alltech Young Scientist Award, Kentucky, USA, 2010
- Gold & Silver Medals, International Mathematics Competition for University Students, Blagoevgrad, Bulgaria, 2010
- Gold Medal & Best Award, International Invention and Innovation Exhibition (i-ENVEX) 2011, Malaysia
- 3<sup>rd</sup> winner, International APEX Global Busines-IT Case Challenge 2011, Singapore
- 2<sup>nd</sup> winner, Student Competition, International of Food Technology, New Orleans, USA, 2011
- 1<sup>st</sup> and 2<sup>nd</sup> winners, Trinity College Fire Fighting Robot Contest, Hartford, Connecticut, USA, 2011

### Brief History

Universitas Gadjah Mada (UGM) is the oldest and the largest state university in Indonesia. It was founded on December 19, 1949 and currently has 18 faculties, a Graduate School, and a Vocational School. There are currently 68 undergraduate programs, 23 diploma programs, 104 master programs, and 43 doctorate programs.

The University is located in The Special Region of Yogyakarta, one of the smallest provinces in the country, which has been widely known as the center of Javanese culture as well as the center of learning. It has 3,200,000 inhabitants, 511,000 of whom reside in the city of Yogyakarta. The Special Region of Yogyakarta focuses its development on three inseparable pillars: education, culture, and tourism.

## Supporting Units

### Institute For Research & Community Service

The institute carries out outstanding multi-disciplinary researches, collaborative researches, and community services.

The outstanding university community service program on community empowerment has made it eligible to be awarded ISO 9001:2000 by the WQA, England.

Phone +62-274-552432, 6491963; Fax. +62-274-515391;  
E-mail: lppm@ugm.ac.id; Website: <http://lppm.ugm.ac.id>

### Integrated Research & Testing Laboratory

LPPT-UGM (Integrated Research and Testing Laboratory) is a central laboratory which offers facilities on doing research and product development for students and researchers. LPPT also develops: SNI (Indonesia National Standard) oriented methods, equipments supporting technology for research and industry processes, and innovative technology with property right orientation.

LPPT also offers testing services, which is done in accordance with the laboratory management standard of ISO/IEC 17025:2005. The testing competence is on food, milk, environment and fuel analysis, and this will be extended to other fields such as mycotoxin, phytofarmaka and trace element testing. As a supporting unit for the university, LPPT develop an "affiliation" with other research, testing and production laboratories at faculty around UGM and other institutions.

Phone/Fax. +62-274-548348, 546868;  
E-mail: lppt\_info@mail.ugm.ac.id; Website: <http://lppt.ugm.ac.id>

### Center For Information & Communication Technology

A fiber optic network, 110 hotspot areas, and a hi-speed internet access are available for students to enjoy.

Phone +62-274-515660; E-mail: pptik@ugm.ac.id

### University Library

Occupying an area of 22,260 m<sup>2</sup>, the Library offers a full range of both printed and digital materials. Our databases provide more than 30,000 online journals, e-books, proceedings and other types of materials. UGM's library is a leader in the local, national and international library networking. UGM library is also a member of the ASEAN University Inter-Library Network Online (ANUNILO). It holds collaborations with other libraries in the world in various activities for librarians and academicians.

Phone/Fax. +62-274-513163;  
E-mail: admin@lib.ugm.ac.id;  
Website: <http://lib.ugm.ac.id>

### Gadjah Mada University Press

Founded in 1971, UGM Press is Indonesia's leading university publisher specializing in academic, educational, and cultural publications. It now has a backlist of over 1,100 books in print.

Phone: +62-274-561037  
E-mail: gmupress@ugm.ac.id; Website: <http://gmup.ugm.ac.id>

### Quality Assurance Office

The office is responsible for implementing, monitoring, auditing, and evaluating the university's entire quality assurance. Those efforts have successfully ranked the university as the best quality assurance system among ASEAN countries.

Phone/Fax.: +62-274-6491989 / 6491986;  
E-mail: kjm@ugm.ac.id; Website: <http://kjm.ugm.ac.id>

### Education Development Center

UGM implements a Student-Centered Learning Plus called STAR (Student Teacher Aesthetic Role-sharing), a new paradigm to maximize students' creativity and participation.

In addition, e-learning has been promoted as a means of out-of-class learning process.

Phone : +62-274-6491830;  
E-mail: p3ugm-owner@yahoo.com.

### INCULS

#### (Indonesian Language & Culture Learning Service)

Its aim is to provide courses on Indonesian language and culture as well as local languages and workshops for students at UGM.

The language teachers and tutors are trained through methods of Natural Approach and Communicative Teaching, which emphasizes on direct pertinence to real life situations and constant interactions. The teachers for cultural classes are all qualified faculty members.

Phone +62-274-6491137, Fax: +62-274-550451  
E-mail: inculs@ugm.ac.id; Website: <http://inculs.ugm.ac.id/>

### Regional Center of Expertise (RCE Yogyakarta)

This is the only RCE in Indonesia, coordinated by the United Nations University and supported by the UNESCO and UNEP.

The center's activities aim to improve sustainable community welfare through poverty reduction & illiteracy eradication and promoting public participation in sustainable development.

Phone/Fax +62-274-565834  
E-mail: lppm@ugm.ac.id; Website: <http://www.lppm.ugm.ac.id>

## Facilities

### GMC Health Center

The center implements health insurance. It also serves not only as the major health center which is supported by qualified doctors, but as a family medical center as well. In addition, it also offers psychological consultation.

Phone/Fax: +62-274-551412; E-mail: gmc@ugm.ac.id

### P.T. Gamatechno Indonesia

Epitome of Yogyakarta and UGM's competence in information technology, the company offers IT total solutions focused on software development and information systems, consultancy and data communication infrastructure development.

Phone : +62-274-566161, 566134; Fax. +62-274-566160;  
E-mail : info@gamatechno.com; Website: [www.gamatechno.com](http://www.gamatechno.com)

### UGM Residence

UGM Residence offers 4 student dormitories, available both for domestic and international students. Cemaralima Residence has 2 buildings of 4 floors with 98 bedrooms in total and Dharmaputra Residence consists of two blocks of 3 floors with 167 bedrooms. Bulaksumur Residence and Ratnaningsih Residence are dedicated to female students. Bulaksumur Residence's consists of 2 blocks and its capacity is 168 bedrooms, where each room can be used by 2 students. "Ratnaningsih Residence consists of two floors with 37 bedrooms; each can be used for 2 or 3 students.

Phone: +62-274-7103498; Fax.: +62-274-549023; E-mail: residence@ugm.ac.id  
Website : <http://www.residence.ugm.ac.id/>

### Indoor & Outdoor Stadiums

Spacious outdoor and indoor stadiums are the best places for various sports and cultural activities (football, tennis, baseball, basketball, badminton, hockey, volleyball, art & cultural performances, etc.)

Student Administration Office UGM  
Phone: +62-274-901912; Fax.: +62-274-565223;  
E-mail: dirkma@ugm.ac.id

### Student Center

This is the main place where all student activity groups do their activities.

Phone: +62-274-901912; Fax.: +62-274-565223;  
E-mail: dirkma@ugm.ac.id

### University Archive

The first and the only university archive in Indonesia, the UGM Archive provides archives and records about the history of the university.

Phone : +62-274-902151 ; E-mail: arsip@ugm.ac.id

## Research Centers

### The Center for Agro Ecology Studies

The center focuses on interdisciplinary studies on agricultural resources management to improve the economic productivity.

Phone +62-274-548816  
E-mail: [psa-ugm@yahoo.com](mailto:psa-ugm@yahoo.com)

### The Center for Asia and Pacific Studies

The center produces researches on social, political, cultural, economic and other issues related to Asia-Pacific region, in order to provide important recommendations to the stakeholders.

Phone +62-274-901054; +62811258133  
E-mail: [caps@ugm.ac.id](mailto:caps@ugm.ac.id)  
Website: <http://caps.ugm.ac.id>

### The Center for Management of Biological Resources Studies

The center focuses on developing and promoting biological resources and its diversity through research and technology innovation.

Phone/Fax.: +62-274-6492300, 6492724

### The Center for Biotechnology Studies

This is a center of research, training, and teaching activities in Biotechnology, especially for master and doctoral students.

Phone : +62-274-564305  
Fax : +62-274-520842  
E-mail: [biotech@ugm.ac.id](mailto:biotech@ugm.ac.id); [biotech.ugm@gmail.com](mailto:biotech.ugm@gmail.com)  
Website : [www.biotech.ugm.ac.id](http://www.biotech.ugm.ac.id)

### The Center for Clinical Pharmacology and Pharmaceutical Policy Studies

The Center focuses on research and training in Pharmaceutical Policy and Improving Access to Essential Medicines.

Phone: +62-274-563596; 902548  
Fax : +62-274-563596; 543711  
E-mail: [farklin@yogya.wasantara.net.id](mailto:farklin@yogya.wasantara.net.id)  
Website: <http://www.farklin.com>

### The Center for Cultural Studies

The center aims to study, researches and promote on the cultural perspective in development policies.

Phone: +62-274 521317  
Fax: +62-274-6491070  
E-mail: [psk@ugm.ac.id](mailto:psk@ugm.ac.id)

### The Center for Economic Democracy Studies

The center produces significant multi-disciplinary studies on Indonesian economy.

Phone +62-274-555664, 545991, 6491055  
Fax. +62-274-555664  
E-mail: [ekonomikerakyatan@ugm.ac.id](mailto:ekonomikerakyatan@ugm.ac.id)  
Website: [www.ekonomikerakyatan.ugm.ac.id](http://www.ekonomikerakyatan.ugm.ac.id)

### The Center for Economic & Public Policy Studies

The center focuses on basic and policy oriented researches as well as applied researches in public, economic and tax policies.

Phone: +62-274-564926  
Fax: +62-274-581827  
E-mail: [psekp@ugm.ac.id](mailto:psekp@ugm.ac.id)  
Website: <http://paue.ugm.ac.id>

### The Center for Energy Studies

The center focuses on research application and development of technology and policy on fossil - based and renewable energy. It offers comprehensive solution to develop sustainable energy system

Phone/Fax.: +62-274-549429, 549429  
E-mail: [ndari@ugm.ac.id](mailto:ndari@ugm.ac.id)  
Website: <http://indonetwork.or.id/pse-ugm>

### The Center for Environmental Studies

The center focuses on human resources, environment, and natural resources development through research, education, and training.

Phone: +62-274-565722, 6492410  
Fax : +62-274-565722  
Email : [pslh@ugm.ac.id](mailto:pslh@ugm.ac.id)  
Website : <http://plsh.ugm.ac.id>

### The Center for Food & Nutrition Studies

The center focuses on promoting research and education in the field of food science and nutrition as well as community development..

Phone +62-274-6492282  
Fax. +62-274-589242  
Website : [www.cfns.ugm.ac.id](http://www.cfns.ugm.ac.id)

### The Center for German Studies

The center carries out conducive collaborations on research, course, training, as well as industrial and cultural activities among UGM and German institutions.

Phone/Fax. : +62-274-6491078  
E-mail: [pusman\\_ugm@yahoo.com](mailto:pusman_ugm@yahoo.com)  
Website: <http://pusman.ugm.ac.id>

### The Center for Japanese Studies

The center focuses on learning Japanese culture and its development to be used for designing Indonesian development.

Phone/Fax. +62-274-552529

### The Center for Korean Studies

The center focuses on strengthening the relationship between Indonesia and South Korea through education.

Phone +62-274-6491979  
E-mail: [pskugm@yahoo.com](mailto:pskugm@yahoo.com)

### The Center for Land Resources Studies

The center aims to guide the process of mapping, inventory making of land resources, evaluation, on land appropriateness and land use development (including critical land remedy and degraded land, and also land reclamation) for governmental & private institutions.

Phone +62-274-546328  
E-mail: [pslugm@telkom.net](mailto:pslugm@telkom.net)

### The Center for Marine Resources & Technology Studies

The center focuses on technology utilization to optimize Indonesian marine resources for food security and other marine potentials (renewable energy, pharmaceutical, craft, etc.)

Phone +62-274-6491020, 552537  
Fax. +62-274-552537  
E-mail: [marineugm@ugm.ac.id](mailto:marineugm@ugm.ac.id)

### The Center for Disaster Studies

The center focuses on improving the citizens capacity in disaster risk reduction and supporting the national level agency for mitigation and disaster management.

Phone +62-274-6491978, 548812  
Fax. +62-274-548812  
E-mail: [psba@ugm.ac.id](mailto:psba@ugm.ac.id);  
[psba\\_ugm@yahoo.com](mailto:psba_ugm@yahoo.com)  
Website: <http://rcd.ugm.ac.id>

### The Center for Pancasila (State ideology) studies

The Center develops philosophical and scientific studies on Pancasila

Phone : +62 (274) 6491023  
Fax : +62 (274) 553149  
E-mail : [psp.ugm@gmail.com](mailto:psp.ugm@gmail.com)  
Website: <http://www.psp.ugm.ac.id>

### The Center for Population & Policy Studies

The Center focuses on the studies of population and policy issues

Phone: +62-274-563079, 518856, 901152;  
Fax: +62-274-582230  
E-mail : [secretary@cpps.or.id](mailto:secretary@cpps.or.id)  
Web Site : <http://www.cpps.or.id>

### The Center for Regional Planning & Development Studies

The center focuses on research, education, and training to develop regional development approach, methodology, and planning process. .

Phone +62-274-6491263, 6491264, 562800  
Fax. +62-274-562800  
E-mail: [surat@psppr-ugm.net](mailto:surat@psppr-ugm.net)  
Website: [www.psppr-ugm.net](http://www.psppr-ugm.net)

### The Center for Rural & Regional Development Studies

The center focuses on conducting researches and studies on rural and regional development, food security and food sovereignty, poverty, justice, and CSR program evaluation and planning

Phone/Fax.: +62-274-564463  
E-mail: [pspk@ugm.ac.id](mailto:pspk@ugm.ac.id)  
Website: <http://www.pspk-ugm.or.id>

#### The Center for Security & Peace Studies

The center focuses on developing new concepts to deal with peace and security issues at local and national levels as well as regional and international levels through action-research, which combines critical inquiry and accurate engagement in the forms of scientific research, mediation, facilitation, training, and workshop.

Phone/Fax.: +62-274-520733  
Email: csp@ugm.ac.id  
Website: <http://csp.ugm.ac.id>

#### The Center for Southeast Asian Social Studies

The center seeks to respond mutual understanding problems found among Southeast Asian region brought by the ever-expanding awareness of its people about their regional interconnectedness.

Phone/Fax. : +62-274-589658  
E-mail: pssatugm@yahoo.com  
Website : [www.pssat.ugm.ac.id](http://www.pssat.ugm.ac.id)

#### The Center for Tourism Studies

The center focuses on development and application of science, technology and art to support the tourism development in Indonesia.

Phone/Fax. : +62-274-564138  
E-mail : puspar@ugm.ac.id  
Website : <http://www.pusparugm.org>

#### The Center for Transportation and Logistics Studies

The center focuses on responding problems and challenges in transportation and regional development, supported by excellent quality of researches in various disciplines.

Phone: +62-274-556928, 6491075  
Fax.: +62-274-6491076  
E-mail: pustral-ugm@indo.net.id  
Website: <http://www.pustral-ugm.org>

#### The Center for Women Studies

The center focuses on promoting gender equity and justice..

Phone: +62-274-583546, 6492417  
E-mail: info@psw-ugm.web.id;  
psw-ugm@yahoo.co.id  
Website : [www.psw-ugm.web.id](http://www.psw-ugm.web.id)

#### The Center for Engineering Science Studies

The center focuses on researches and development of laboratory-based engineering science.

Phone +62-274-565834, 6492287  
Fax. (+62-274) 565834  
E-mail: psit@ugm.ac.id  
pauitugm@indo.net.id

#### The Center for World Trade Studies

The center focuses on: 1. Research and studies that are critically investigate a variety of trends in global trade; 2. Training and policy advocacy which are constructive as policy inputs and recommendation of action for government officials, public sectors and other private practitioners who are ready and anticipate for issues, challenges and opportunities in global trade

#### Research and Community Services Achievements

In line with Universitas Gadjah Mada (UGM) Strategic Plan 2008-2012, the vision of UGM is to be a world class research university, which is competitive, independent, respectable, and based on Pancasila in offering services for the sake of nation's needs towards its prosperity. The vision is realized through the mission in research based education and community services. More specifically, the missions carried out by UGM are: 1. To improve world class education, research, and community empowerment, that rooted on community and Indonesian socio-cultural development, 2. To complete the transitional phase of UGM towards independent university implementing good management practices. Based on the stated vision and mission, the basic principles as the foundation for strategies and policies with respect to research and community services are: 1. Continual quality improvement, 2. Extension of collaboration and network, 3. Institutional capacity building, and 4. Good management practices.

The aforementioned basic principles are further interpreted by The Institute for Research and Community Services (LPPM) UGM into five main programs, which are: 1. Research quality management and assurance, 2. Management of database and communication of research and community services, 3. Industrial research development and services, 4. Extension of national and international collaboration network, and 5. Community empowerment through the program of Student Community Services-Community Empowerment Learning (SCS-CEL) and empowerment of micro, small, and medium enterprises. These five main programs are run by five divisions whose names are similar to their corresponding main programs.

In research, UGM have been facilitating all research activities, which are grouped into 4 Research Clusters. These Research Clusters are namely Science and Technology Cluster, Health and Medicine Cluster, Agriculture Cluster, and Social and Humanity Cluster. These four clusters have been developing multidisciplinary collaborations, which are notably competitive and internationally recognized. Through these interdisciplinary and competitively scientific researches, UGM researchers have marked their existence in the globalization of knowledge and technology. In the last 5 years, the productivity of UGM researchers was shown by in average 900 research projects per year and 1000 research publications per year.

Some internationally recognized achievements in research have been shown by UGM researchers. Among those achievements are research on wood that has been acknowledged by the Japan Wood Research Society (JWRS)

in the 2009 JWRS Progress Award. Recently Japan Society of Applied Electromagnetics and Mechanics (JSAEM) has granted 2009 Young Engineer Award for a young UGM researcher for research in Magnetorheology. In biotechnology, Nagoya International Orchid Congress (NIOC) acknowledged UGM researcher achievement in orchid research by awarding 2009 Encouraged Award. Moreover, the expertise of UGM researchers have been recognized by international scientists. One example is the 2009 Pediatric Award that has been granted to one of the medical faculties. The award was granted by the Asian Pacific Pediatric Association (APPA).

The international patents achieved by the UGM researchers in the health and medicine field have brought its internationally competitive quality. The universal acknowledgement is shown by the WHO's adoption of handling protocol for children with diarrhea in hospital proposed by lecturers of the Medical Faculty, UGM, as well as by UNDP's adoption of methods of handling social conflicts. Many joint researches have been done by UGM researchers in collaboration with researchers from prominent universities in the world for biomedical sciences and social humanities subjects respectively.

UGM has been well known for its high achievements in community services. Every year, UGM deploys more than 6000 students and 200 senior lectures/professors in SCS-CEL program. For its roles in community services, UGM was awarded by the United Nation University (UNU) on December 17, 2007, to become 1 among 74 RCEs (Regional Centers of Expertise) in the world, with the expertise of community/society empowerment. Becoming one of the RCEs proved that activities of research based community services implemented through SCS-CEL program have obtained international acknowledgement. Up to year 2010, the number of foreign students who participated in SCS-CEL program has reached around 300. They came from Argentina, Australia, Austria, Belgium, Brunei Darussalam, China, Egypt, England, France, Germany, Japan, Malaysia, Namibia, New Zealand, Norway, Russia, South Korea, Thailand, and United States.

## The Blue Campus Turns Green

The concept and implementation of green campus that has been followed up, among others, include the vision of educopolis campus, which is an environment that is conducive to the learning process in the context of the development of multidisciplinary collaborations and responsive to ecological issues in order to achieve the university vision. One of the efforts made to realize the vision of development and management of the aforementioned educopolis campus is to control the flow of motor vehicle traffic in UGM through disincentives. This pattern is expected to reduce access for the public who have nothing to do at the university. It is necessary to keep the tranquility of the learning process and reduce the potential of traffic accidents, air pollution, noise pollution, and lawlessness in the area of campus.

Therefore, guard portals were established. In addition, all academicians who use motor vehicles have also register for a Vehicle Identity Card (KIK). In addition, the use of KIK also aims to: (1) reduce use of paper (tickets) in order to control the safety of motor vehicle from acts of theft, (2) control the number of vehicles (especially cars) that park in crowded parking locations

## International Cooperation

UGM has currently 342 Memorandum of Understanding with foreign universities/colleges and institutions

## International Students

Universitas Gadjah Mada welcomes students from around the world to apply and take advantage of the high-quality education that the university has to offer.

### ENTRY PROCEDURES FOR COURSES AND EXTENSIONS

#### General entry requirements:

1. meet all academic standard required by Indonesian universities;
2. receive offer of admission from the Indonesian Higher Education Office;
3. submit a statement of source of funding for Bachelor's, Master's or Doctoral courses;
4. submit medical statement issued by home country's recognized doctor or hospital;
5. submit a statement saying that the applicant agrees to comply with Indonesian university regulations.

#### Specific entry requirements:

All international students intending to study in Indonesian universities for academic programs, professional course work, language and cultural classes or practical training programs should provide the following documents:

1. an offer of admission from the university,
2. a letter of recommendation from the Indonesian Embassy Officials.
3. a curriculum vitae or resume.
4. a certified copy of secondary level certificate/diploma and academic transcripts.
5. a statement on source of funding or bank statement.
6. a copy of valid passport.
7. a statement saying that the applicant agrees not to work during the course of study in Indonesia, and to comply with Indonesian law and regulations.
8. a letter of sponsorship from Indonesian institutions/agencies or family in Indonesia supporting the student's intention to study.
9. a red-background, passport-size (4 cm X 6 cm) photo.
10. a medical statement issued by home country's authorized institutions or hospitals.

Students undertaking practical training programs should also submit a letter of recommendation from Indonesian universities or institutes where they study.

#### Extended study permit:

Should a student need to extend his/her period of study in Indonesia, the university should request an extended study permit from the Directorate General of Indonesian Higher Education. Supporting documents for obtaining the extended study permit are as follows:

1. a student's academic progress report
2. Police registration card (SKLD) from the local Police Station.
3. a copy of valid passport.
4. a copy of Limited Stay Permit in Indonesia (KITAS)
5. a curriculum vitae or resume.
6. a statement on source of funding or bank statement.

#### Procedures to get Visas:

We strongly suggest you that to visit Indonesia, you do not use visas other than the temporary stay visa (commonly called VITAS), because inconveniences may occur. For example, if your stay is for study purpose, which requires the VKSB (Visa Kunjungan Sosial Budaya/Social and Cultural Visit Visa), you will normally be granted a permit for 2 month's stay. You will, however, need to extend your visa at your local immigration office every month for the whole duration of 6 months. Furthermore, you will have to apply for a new visa from the nearest Indonesian Embassy (this means that you will have to leave Indonesia) after 6 month's stay.

#### Procedures to apply for student visas:

1. Applicants submit the application and all supporting documents stated in the specific entry requirements directly to intended university or institute.
2. Should an applicant receive an offer of admission, the university becomes the applicant's facilitator or sponsor during his/ her period of study in Indonesia.
3. The university sends a covering letter requesting study permit for the applicant and all supporting documents to the Directorate General of the Indonesian Higher Education.
4. The Directorate General of the Indonesian Higher Education recommends the applicant's academic standing to the Bureau of Foreign Affairs and Public Relations (BKLN) and the Secretariat General of the Ministry of National Education.
5. The Bureau of Foreign Affairs and Public Relations (BKLN) and the Ministry of National Education and all related departments discuss and review the applicant's documents in a Clearing House discussion forum.
6. The Bureau of Foreign Affairs and Public Relations (BKLN) and the Ministry of National Education grant a permit for the applicant and send a permit letter to the university concerned. A copy is sent to the applicant as well.
7. Applicants already residing in Indonesia may directly apply to the universities and submit all necessary supporting documents listed earlier.

#### Visa types and application procedures for stay permit:

##### A. Types of visas for staying in Indonesia:

1. Diplomatic Visa
2. Work Visa
3. Tourist Visa
4. Socio-cultural Visa
5. Limited Stay Visa

The appropriate visas for international students who wish to study in Indonesia is the Limited Stay Visa. This is issued by the Directorate General of the Immigration Office in Jakarta (see Stay Permit Application Procedures ?).

##### B. Application procedures for Limited Stay Visas.

There are two ways in obtaining Limited Stay Visas for international students who wish to study in Indonesia.

- |   |   |
|---|---|
| <ol style="list-style-type: none"> <li>1. International students who are still in their country of origin and will visit Indonesia with the Limited Stay Visa (VITAS)/one year visa<br/><br/>Procedure:<br/>a. After the issuance of study permit by the Foreign Affairs Bureau and the National Education Ministry, the university requests a Limited Stay Visa (VITAS) for international students from the Directorate General of Immigration in Jakarta. The University or its representative can help arrange the Limited Stay Visa (VITAS) if students submit: <ul style="list-style-type: none"> <li>• 3 passport-size photographs</li> <li>• a copy of valid passport</li> <li>• a curriculum vitae or resume</li> </ul> b. The Director General of Immigration issues the Limited Stay Visa (VITAS) through the Indonesian embassy/consulate in their home country<br/>c. International Students apply for the Limited Stay Visa (VITAS) through the Indonesian embassy/consulate in their home country<br/>d. With the Limited Stay Visa (VITAS), international students may visit Indonesia and the university concerned.<br/>e. The university submits the Limited Stay Visa (VITAS) and requests the Limited Stay Permit (KITAS) from the local Immigration office and Police registration card (SKLD) from the local Police Station</li> </ol> | <ol style="list-style-type: none"> <li>2. Applicants visiting Indonesia with the Social-Cultural Visit Visa (valid for 30 or 60 days and extendable for a maximum of 4 x 1 month, for a total of 6 months?)<br/><br/>Procedure:<br/>a. Applicants may use the Social-Cultural Visit Visa from Indonesian embassy/consulate and the study permit to enroll in the university..<br/>b. If the applicant is admitted, the university will request a study permit from the Ministry of National Education<br/>c. After the study permit has been issued, the university will request the local immigration office to convert the immigration status of the Social-Cultural Visit Visa to the VITAS..<br/>d. The head of the Local immigration office will send the conversion proposal to the Immigration Central Office in Jakarta through the Ministry of Justice and Human Rights.<br/>e. The Immigration Central Office in Jakarta can only give approval on the conversion request after the students have stayed for 2 months.<br/>f. Subject to approval for conversion, students may apply for the KITAS from the local immigration office and the Police registration card from the local Police Station.</li> </ol> |
|---|---|

#### How to extend stay permit

The university will regularly request an extension of the KITAS of its international students on a yearly basis from the local immigration office based on the duration of the permit. The University will forward the KITAS to the Directorate General of Higher Education.

Arrangement of KITAS for international students studying in institutions which are not under the National Education Ministry will be handled by the institutions themselves.

Once the extended stay permit is granted, the international students should obtain the SKLD.

## Procedures to Conduct a Research at Universitas Gadjah Mada

If, as a foreign researcher, you wish to do a research in Indonesia, you have to apply for a research permit to your research counterpart. This is normally an institute or a body connected to your research such as the Indonesian Institute of Science (LIPI) Ministry of Research and Technology (RISTEK) or a counterpart from any university in Indonesia. If no sponsor is available for your research, LIPI is willing to act as your sponsor upon request. In order to obtain a visa to conduct a research, your research proposal must be approved by the Ministry of Research and Technology (RISTEK).

The cost for obtaining the research permit and/or the researcher visa is US\$ 100. For further information please visit <http://www.ristek.go.id> or email to: [frp@ristek.go.id](mailto:frp@ristek.go.id).

## Living Cost in Yogyakarta

### Weather

Yogyakarta has a warm tropical climate with two seasons; wet and dry. The wet season lasts from October to March and the heaviest rains occur in December and January. The temperature throughout the year averages from 24° to 31° C (80° to 87° F) and the humidity averages about 75%.

### Electricity

The electricity system in Indonesia runs 220V at A 50 Hz (European Standard). Equipment with 110 V at AC50 Hz (American Standard) will need an adaptor or step down transformer of some kind.

### Money Changer and Banks

Most hotels from three to five star provide foreign currency exchange services. There are also numerous money changers in the Malioboro area. Local Banks provide a full international service, including money transfer, Visa, Master Card, Cirrus, Alto networks. These are the contact numbers of some credible local banks: Bank BNI (+62-274-387751), Bank Mandiri (+62-274- 586425), Bank BCA +62-274-517282), Bank BII (+62-274-561416), and Bank Niaga (+62-274-565338).

### Public Transportation

There are many different modes of public transportation available like pedicab, horse and cart, ojek (cheap 2 wheel taxis), taxis and city buses. Most students use bikes, motorcycles & buses for their transportation needs. It is save to cycle, go by pedicab or horse and cart, as Yogyakarta's terrain is flat and the roads are paved.

### Travel Documents

A valid passport and Visa are required when visiting Indonesia. There are a range of visas that can be applied for at your closest Indonesian Embassy: tourist visa, study visa, and cultural visa. Study and business visas have a validity of one year (can be extended annually) and tourist visas have a validity of one month.

### Accommodation and Cost of Living

There is a wide range of housing options available with reasonable prices including university operated housing. The cost of living in Yogyakarta is significantly lower than other major cities in Indonesia.

Accommodation	US\$ 40 - 100
Meals	US\$ 60 - 100
Transport	US\$ 30 - 50
<b>T o t a l</b>	<b>US\$ 130 - 250 /month</b>
